

Synchrony Public Services Knowledge Book

Organized service-family reference • Public information reviewed September 2026

Coverage: consumer financing, credit cards, network programs, installment/BNPL products, healthcare financing, banking, merchant services, digital capabilities, eCommerce, marketing, analytics, account servicing and Marketplace.

Structure: one major topic per page; each page has a unique Page ID in the upper-right corner.

***Important scope:** this is a comprehensive public-facing service-family catalog. It does not attempt to list every individual retailer-branded card, merchant, internal process, proprietary system or confidential service.*

Synchrony: Company & Service Ecosystem

Scope

Synchrony Financial is a consumer financial services company whose public offering connects consumers and business partners through financing, payments, savings, digital capabilities and merchant programs.

Core service families

- Consumer financing: private-label/branded credit cards, network cards, general-use Mastercard products, installment loans and Pay Later/BNPL.
- Business financing: merchant programs, financing enrollment, eCommerce integrations, digital application tools, transaction platforms, marketing and training.
- Banking: Synchrony Bank deposit products including high-yield savings, money market accounts, CDs and IRA products.
- Healthcare: CareCredit financing for health, wellness, beauty and pet care, including provider-side tools.
- Digital ecosystem: MySynchrony account management, mobile wallet support, Marketplace, online applications and partner integrations.

Operating model

Synchrony generally creates financing programs with merchants, brands, healthcare providers and digital platforms. The exact product, promotional financing, acceptance footprint and terms depend on the program and applicable credit approval.

Current public-source note

This knowledge book reflects publicly available information reviewed in September 2026. It is a service-family reference, not an internal Synchrony manual. Individual partner programs and rates can change.

Primary public source: <https://www.synchrony.com/about-us/fact-sheet>

Synchrony's Five Sales Platforms

Home & Auto

Payments and financing for home and automotive merchandise/services, including Synchrony HOME and Synchrony Car Care.

Digital

Financing and payment experiences embedded in digital channels, including digital-first merchants, marketplaces and payment relationships.

Diversified & Value

Large retail relationships serving everyday-value shopping and important life moments through integrated in-store and digital experiences.

Health & Wellness

Healthcare payments and financing through provider and retail networks, centered on CareCredit and related programs.

Lifestyle

Financing across power sports, outdoor power equipment, sporting goods, apparel, jewelry, music and related lifestyle categories.

Why the platform model matters

Synchrony's public filings describe these platforms as the primary organization of its revenue-generating sales activities. They are organized around partner types and measured using metrics such as loan receivables, active accounts and interest/fees on loans.

Primary public source: <https://www.synchrony.com/about-us/fact-sheet>

Retail / Private-Label Credit Card Programs

What it is

Synchrony offers merchant-branded credit programs that let consumers finance purchases with a card associated with a specific retailer or brand.

Consumer value

Programs can provide promotional financing, special offers, account management, credit access and repeat purchasing capability, subject to the applicable card agreement.

Business value

Partners can use financing to give customers another payment option, support higher-ticket purchases, encourage repeat visits and reinforce brand loyalty.

Program structure

A private-label card can be restricted to the sponsoring brand/program. Some programs are dual-branded or have broader network acceptance depending on the product.

Important distinction

Promotional financing is not a single universal Synchrony term. The exact promotion, qualifying purchase amount, interest treatment, duration and minimum payments depend on the individual program.

Primary public source: <https://www.synchrony.com/business/financing-solutions>

Synchrony Network Cards

Network concept

A Synchrony-branded network card is designed around a category or industry rather than one retailer. Participating merchants accept the network card within the relevant ecosystem.

Publicly listed networks

Synchrony Car Care, CareCredit, Synchrony HOME, Synchrony Home Improvement, Synchrony Luxury, Synchrony Music & Sound, Synchrony Outdoors, Synchrony Project Card, Synchrony Sewing & More and Synchrony Sport.

How network cards differ

They can provide consumers with a reusable financing relationship across participating merchants in a category, while giving participating businesses access to an existing cardholder base.

Acceptance

Acceptance is program-specific. A merchant locator or individual retailer should be checked before assuming a card is accepted.

Partner perspective

Network programs can combine financing, marketing, promotional offers, merchant tools and digital resources.

Primary public source: <https://www.synchrony.com/business/financing-solutions>

Synchrony Car Care

Purpose

A category financing network for automotive parts, repair, tires, services, gas and other eligible automotive purchases.

Consumer use

The Synchrony Car Care credit card is accepted across a large automotive merchant network and can be used for eligible car-care needs.

Promotional financing

The public card page currently describes promotional financing on qualifying purchases, with specific thresholds and terms shown in the applicable offer.

Merchant ecosystem

The public locator includes categories such as auto parts, dealerships, rental, car wash/detailing, gas, heavy-duty trucking, repair, towing and tires.

Account features

Public materials describe online account access, customizable alerts, payment management and other card-servicing capabilities.

Primary public source: <https://www.synchrony.com/financing/car-care/cardholder>

Synchrony HOME

Purpose

A category card program for home-related purchases, including furnishings, appliances, flooring, hardware and other eligible home categories.

Consumer proposition

The card is designed for purchases at participating Synchrony HOME locations and may offer promotional financing.

Partner proposition

Synchrony describes the program as providing access to a large cardholder base, promotional financing opportunities and marketing/special-offer capabilities.

Acceptance

Participating locations determine acceptance and the promotional offers available at a specific purchase.

Use case

Useful for consumers making larger or project-related home purchases that may benefit from spreading payments over time.

Primary public source: <https://www.synchrony.com/financing/home/synchrony-home-credit-card>

Synchrony Project Card

Purpose

A financing card focused on home improvement and repair projects through participating contractors.

Core features

Public materials describe repeat use, thousands of contractor locations, promotional financing opportunities and convenient monthly payments.

Project model

Unlike a one-time installment loan, the card is designed as a reusable financing relationship for eligible home projects.

Contractor ecosystem

Contractors can use Synchrony tools to estimate payments, present financing, facilitate applications and complete sales.

Terms

Promotion duration and other financing details vary by offer and contractor and remain subject to credit approval.

Primary public source: <https://www.synchrony.com/financing/synchrony-project-card>

Synchrony Home Improvement / Contractor Services

Target users

Home improvement contractors and businesses that want to offer consumer financing.

Synchrony Toolbox

A public resource hub providing financing training, digital tools, business resources and Synchrony Transact.

Synchrony Transact

A digital financing platform designed to estimate payments, support customer applications and help complete transactions.

Training

Resources include promotion-selection guidance, marketing playbooks, online-financing best practices, in-home sales tools and scripts.

Business value

Synchrony positions financing as a way for contractors to offer payment flexibility while improving the customer sales experience.

Primary public source: <https://www.synchrony.com/business/b2b/tools/contractor-toolbox>

CareCredit Healthcare Financing

Purpose

CareCredit is Synchrony's healthcare financing brand for health, wellness, beauty and pet-related expenses.

Care categories

Public CareCredit materials describe use cases including medical care, dental care, vision, veterinary/pet care, cosmetic procedures, hearing and other eligible services.

Provider network

CareCredit reports a large network of participating provider and retail locations; the current public CareCredit site states 285,000+ locations.

Products

Synchrony's filings describe a CareCredit private-label credit card, a CareCredit Dual Card with broader use, and installment loans at select providers.

Provider services

CareCredit also provides enrolled providers with portal access, financing tools, resources, training and program-management capabilities.

Primary public source: <https://www.carecredit.com/procedures/>

Synchrony Luxury

Purpose

A specialty financing network for eligible luxury and jewelry purchases.

Consumer proposition

Customers can finance qualifying purchases at participating merchants and may receive promotional offers.

Business proposition

Synchrony provides participating merchants with financing, application, transaction, advertising and learning tools.

Digital tools

The public partner page highlights Advertising Wizard, Learning Center, Business Center and online consumer application capabilities.

Terms

Promotional offers, acceptance and credit terms depend on the participating merchant and individual account agreement.

Primary public source: <https://www.synchrony.com/business/b2b/financing-solutions/credit-cards/luxury>

Synchrony Music & Sound

Purpose

Financing for musical instruments, sound equipment and related purchases.

Categories

Public materials mention guitars, percussion instruments, sound equipment and digital keyboards.

Merchant network

Synchrony describes a nationwide network of participating music retailers.

Consumer features

Public materials describe no annual fee for the referenced card, \$0 fraud liability, credit-score access and mobile account management, subject to applicable terms.

Retailer-specific cards

Some music retailers also have retailer-specific Synchrony cards; these are distinct from the broader Music & Sound network card.

Primary public source: <https://www.synchrony.com/financing/music-and-sound>

Synchrony Sewing & More

Purpose

Specialty financing for sewing machines, embroidery equipment, furniture, fabric, thread and related supplies.

Network

The public Synchrony page describes a 1,200+ merchant network.

Financing

The page describes promotional financing on qualifying purchases, with additional offers potentially available by retailer.

Consumer services

Account management, alerts, payment options, credit-score access and mobile app support are available subject to the program.

Retailer-specific programs

Certain sewing brands or retailers may offer separate Synchrony-issued cards with different acceptance rules.

Primary public source: <https://www.synchrony.com/financing/sewing-more>

Synchrony Sport

Purpose

Financing for sporting-goods and recreation purchases.

Categories

Public materials list bicycles/e-bikes, fitness equipment, golf, camping/hiking, water sports, backyard play systems, scuba, billiards, skiing/snowboarding and related products.

Network

The card is accepted at participating sporting-goods merchants.

Consumer features

Public materials describe no annual fee for the referenced card, \$0 fraud liability, account alerts, online access and mobile app support.

Promotional financing

Offers vary by participating location and are subject to credit approval.

Primary public source: <https://www.synchrony.com/financing/sport>

Synchrony Outdoors

Purpose

Financing for powersports-related parts, accessories, apparel, equipment and service.

Eligible purchases

Public materials describe parts, service, fuel and eligible equipment purchases; the card cannot be used for down payments on powersports vehicles or trailer purchases.

Promotions

The public page describes qualifying promotional financing tiers that can vary by merchant and purchase amount.

Account features

Online account access, alerts, payment scheduling and credit-limit request functionality are described.

Merchant network

Customers are directed to participating dealer locations and a location finder.

Primary public source: <https://www.synchrony.com/financing/outdoors>

Synchrony Home Specialty Networks

Topic scope

Synchrony's home ecosystem includes category-specific financing for furniture, appliances, flooring, hardware, home improvement and related purchases.

How programs fit together

Synchrony HOME is a broad home retail network, while the Project Card and Home Improvement ecosystem focus more directly on contractors and projects.

Merchant model

Programs can combine financing, marketing, application technology and business tools.

Consumer experience

The appropriate program depends on the merchant, purchase category and financing offer available at checkout.

Primary public source: <https://www.synchrony.com/financing>

Synchrony Pay Later

Product type

Synchrony Pay Later is an installment-loan/BNPL offering rather than a revolving credit card.

Pay in 4

The public page describes four equal payments over six weeks with no interest and no fees for the product described.

Pay Monthly

The public page describes equal monthly payments; rates and terms depend on the loan agreement and credit factors.

Use model

A Pay Later loan is tied to the original purchase and is not a reusable revolving line for additional purchases.

Servicing

Customers can manage payments and account information through the Pay Later servicing website; specific payment methods and late-fee rules depend on the product.

Primary public source: <https://www.synchrony.com/financing/paylater>

Synchrony Secured Installment Loans

Purpose

Synchrony offers secured installment loans as a business financing option intended to enable larger-ticket purchases.

How it differs from cards

An installment loan is structured around a defined loan rather than a reusable revolving credit line.

Business use

Merchants can offer financing for qualifying purchases where a customer may prefer structured repayment.

Eligibility and terms

Loan approval, security requirements, interest, term and other conditions depend on the applicable product and credit decision.

Position in portfolio

Synchrony lists secured installment loans alongside retail credit cards, network cards and Pay Later as business financing solutions.

Primary public source: <https://www.synchrony.com/business/financing-solutions>

General-Use Synchrony Mastercard Products

Synchrony Premier World Mastercard

A general-use Mastercard with the public offering currently advertising unlimited 2% cash back on purchases, no annual fee and Mastercard benefits, subject to applicable terms.

Synchrony Plus World Mastercard

The public Synchrony Mastercard page also lists a Plus World Mastercard with a 1% cash-back proposition.

General-use concept

Unlike a private-label card, a general-use Mastercard can be used wherever the Mastercard network is accepted, subject to card terms.

Prequalification and application

Synchrony provides prequalification/application pathways for eligible products; prequalification and a full application have different credit-report implications as described by Synchrony.

Primary public source: <https://www.synchrony.com/creditcard/>

Synchrony eCommerce Solutions

Purpose

Synchrony provides financing integrations for leading eCommerce platforms.

Platforms

The public page identifies Shopify, WooCommerce and BigCommerce, and references Adobe technology integration.

Solution types

Synchrony describes Pay Later loans and the Synchrony Flex Credit Card as core eCommerce financing options.

Growth Plan

Public materials describe financing options including BNPL and Flex Credit Card deferred-interest promotions, with financing options up to 36 months.

Premium Plan

Public materials describe additional payment options and longer-duration financing, with options up to 60 months.

Merchant integration

The objective is a seamless checkout experience with financing embedded in the digital purchase flow.

Primary public source: <https://www.synchrony.com/business/ecommerce-solutions>

Digital Credit Application Capabilities

Online credit application

Synchrony enables consumers to apply for financing digitally rather than requiring an exclusively in-store process.

Direct-to-device

Synchrony describes technology that lets shoppers apply on their own device while shopping.

Business Center Easy Access

A public capability for completing common business tasks such as processing applications and sales without a full login flow.

Digital experience

These tools are designed to reduce friction for customers and associates while maintaining the financing program workflow.

Partner integration

Digital capabilities can be combined with eCommerce integrations and merchant-specific application links.

Primary public source: <https://www.synchrony.com/business/financing-solutions/capabilities>

Synchrony Transact

Purpose

Synchrony Transact is a digital platform for financing transactions, especially prominent in the home improvement/contractor ecosystem.

Core workflow

Estimate payments → help the customer apply → receive a decision → complete the sale.

Device support

Synchrony provides setup guidance for tablet, smartphone and laptop use.

Training resources

The public resource library includes overview/user guides, quick reference guides, consumer guides and usage tips.

Business contact

Synchrony provides separate contact paths for existing and prospective merchants.

Primary public source: <https://www.synchrony.com/business/b2b/tools/contractor-toolbox/synchrony-transact>

Business Center

Purpose

Business Center is Synchrony's merchant-facing program-management environment.

Typical tasks

Public materials describe application processing, sales/transaction activity, payment-related workflows, ordering supplies and program management.

Role in ecosystem

It is the operational layer connecting a merchant to its Synchrony financing program.

Related tools

Business Center sits alongside Advertising Center, Learning Center, Marketing Asset Repository and Synchrony Transact.

Access

Availability and functionality depend on the merchant's enrolled program.

Primary public source: <https://www.synchrony.com/business/tools>

Advertising Center & Marketing Tools

Advertising Wizard

A tool for creating customizable digital marketing assets for web, social, email and other channels.

Disclosure Generator

A tool intended to help generate financing disclosure language for advertising and support compliance.

Marketing Asset Repository

Provides access to customized application links and marketing resources for participating businesses.

Use case

The service helps merchants promote financing while using program-specific messaging and disclosures.

Availability

Synchrony notes that certain advertising tools may be available only to selected programs and are expanded over time.

Primary public source: <https://www.synchrony.com/business/b2b/tools/advertising-center>

Learning Center & Partner Training

Training purpose

Synchrony provides training intended to help merchant teams understand financing, promotions, applications and customer conversations.

Content types

Public resources include videos, documents, best-practice guides, marketing playbooks, financing-online guidance and sales tools.

Home improvement focus

Toolbox includes specific resources for contractors, including in-home sales and appointment-setting materials.

Operational benefit

Training supports consistent use of financing programs and helps associates explain available options.

Access

Specific courses and materials can depend on the merchant program.

Primary public source: <https://www.synchrony.com/business/b2b/tools/contractor-toolbox/training>

Synchrony Business Solutions Analytics

Service

Synchrony Business Solutions Analytics is a separately marketed business service focused on operational and digital performance insights.

Capabilities

The public page describes tools for customer reviews, digital marketing and website performance, and business operations planning.

Analytics proposition

Synchrony describes personalized tools, business/industry-specific data and insights, and enterprise-level resources.

Commercial model

The public page currently describes a three-month trial and a monthly per-location price after the trial; pricing is subject to the service terms.

Positioning

This service extends Synchrony's business relationship beyond financing into operational and marketing support.

Primary public source: <https://www.synchrony.com/business/b2b/tools/business-solutions>

Synchrony Marketplace

Purpose

Marketplace is Synchrony's consumer-facing shopping and offers environment.

Content

It surfaces brands, financing options, promotional offers, discounts and category-based shopping.

Scale

Synchrony's public site currently describes Marketplace as featuring 500+ brands.

Integration

Marketplace is accessible through the Synchrony website and the MySynchrony mobile app.

Consumer journey

A customer can discover an offer, review financing information, select a partner and then proceed to the relevant application or shopping experience.

Primary public source: <https://www.synchrony.com/what-we-offer>

MySynchrony Mobile App

Account management

The app provides a consolidated dashboard for eligible Synchrony-issued credit card accounts.

Payments

Users can schedule and manage payments, add bank accounts, review payment history and manage account activity.

Account information

Users can view balances, credit limits, transactions and statements and can manage statement-delivery preferences.

Shopping

The app connects users to Synchrony Marketplace deals and offers.

Security

Synchrony describes biometric authentication and industry-standard encryption; eligibility varies by account.

Credit information

The app can provide access to a VantageScore credit score for enrolled users.

Primary public source: <https://www.synchrony.com/mobile-app>

Digital Wallet & Payment Experience

Wallet support

Synchrony publicly promotes the ability to add eligible cards to mobile wallets.

Digital payment role

Wallet capability extends a Synchrony card relationship into digital and contactless purchase experiences where supported.

Eligibility

Not every Synchrony-issued account is necessarily eligible; users should verify the card and wallet requirements.

Broader ecosystem

Digital wallet support complements online account management, Marketplace and embedded/eCommerce financing.

Primary public source: <https://www.synchrony.com/mobile-app>

Synchrony Bank Deposit Products

High-Yield Savings

A savings account designed for interest earnings, with public materials describing no minimum balance and no monthly service fee.

Money Market

A deposit account with interest earnings and access features subject to the product terms.

Certificates of Deposit

Synchrony offers CDs across multiple terms; the public comparison page includes standard CDs and a Bump-Up CD.

Bump-Up CD

The public product page describes a rate-increase option once during the term if the offered Bump-Up rate rises.

IRAs

Synchrony's public filings identify IRA deposit products as part of its deposit-product range.

FDIC

Synchrony states that qualifying deposit accounts are FDIC insured up to applicable limits.

Primary public source: <https://www.synchrony.com/banking/products/compare-products>

Synchrony Bank Digital Banking

Branchless model

Synchrony Bank promotes digital account opening and management rather than a traditional branch network.

Mobile access

Public materials describe mobile check deposit and optional ATM-card access for eligible savings/money-market products.

Rates

Savings and money-market rates can change; CD rates are generally tied to the terms applicable when the account is opened, subject to renewal rules.

Fees

Synchrony's public comparison materials state that its deposit accounts have no monthly service fees, while specific services or early withdrawals may have other applicable terms.

Separate app

Synchrony directs Synchrony Bank savings customers to its Synchrony Bank App rather than the MySynchrony credit-card app.

Primary public source: <https://www.synchrony.com/banking/high-yield-savings/>

Consumer Account Servicing

Online servicing

Eligible customers can register accounts, view statements, review transactions, schedule payments and manage alerts.

Autopay

Synchrony supports automatic payment enrollment for eligible accounts.

Promotional financing support

Public FAQs explain how promotional balances, interest charges and minimum payments work; the exact rules depend on the promotion.

Fraud protection

Synchrony publicly advertises \$0 fraud liability on many referenced card products, subject to the applicable terms.

Disputes and support

Public FAQs provide pathways for payment security, fraud protection and dispute-resolution questions.

Primary public source: <https://www.synchrony.com/help/faqs?tab=cc-fin>

Credit Application & Prequalification

Prequalification

Some Synchrony card pages offer a prequalification process designed to provide an eligibility indication without the same impact as a full application.

Application

A full credit application can involve a credit inquiry and is subject to credit approval.

Decision flow

Applications may be completed online, in-store, through merchant devices or through partner integrations.

Program-specific terms

The credit product, merchant, purchase amount, promotional offer and credit profile influence the final available financing terms.

Customer education

Synchrony provides consumer-facing explanations of financing categories and how to choose between network cards, branded cards, general-use cards and installment loans.

Primary public source: <https://www.synchrony.com/financing/how-it-works>

Industries Served

Home

Furniture, flooring, appliances, electronics, hardware and home improvement.

Automotive

Auto parts, repair, tires, service, gas and related automotive needs.

Healthcare

Medical, dental, vision, veterinary, pet care, wellness and beauty.

Lifestyle

Powersports, outdoor power equipment, sporting goods, jewelry, music, sewing and related categories.

Digital & retail

Digital-first brands, marketplaces, large retailers and everyday-value shopping environments.

Business size

Synchrony publicly describes support for small and medium businesses as well as large businesses and retailers.

Primary public source: <https://www.synchrony.com/business>

Merchant Partner Value Proposition

Consumer acquisition

Financing can provide another reason for shoppers to choose a participating merchant.

Purchasing power

Installment and revolving financing can make larger purchases more manageable over time.

Repeat engagement

Reusable cards can support repeat purchases, while offers and loyalty tools can encourage continued engagement.

Digital conversion

Embedded applications and eCommerce financing can reduce checkout friction.

Business enablement

Synchrony combines financing with training, marketing, transaction tools, analytics and account/program management.

Primary public source: <https://www.synchrony.com/business/financing-solutions>

How Synchrony's Services Fit Together

Consumer layer

Cards, installment loans, Pay Later and savings products address how consumers pay or save.

Merchant layer

Financing programs, Business Center, Transact, advertising and training help businesses offer and manage those products.

Digital layer

eCommerce integrations, online applications, direct-to-device technology, wallets and mobile apps connect the consumer and merchant experiences.

Engagement layer

Marketplace, promotional offers and loyalty/marketing capabilities support discovery and repeat engagement.

Data/insight layer

Synchrony also markets analytics and business-insight capabilities to help partners understand performance and customer behavior.

End-to-end model

The ecosystem can therefore be viewed as: partner → application/checkout → financing or payment → account servicing → offers/engagement → repeat purchase.

Primary public source: <https://www.synchrony.com/about-us/fact-sheet>

Important Terms & Change Controls

Credit approval

Financing products are generally subject to credit approval.

Promotional financing

Promotions vary by card, merchant, purchase amount, duration and offer structure. A promotional offer should never be assumed to apply universally.

Rates and fees

APR, minimum interest charges, late fees and other terms can change for new accounts or differ by product. Existing customers should rely on their agreements.

Acceptance

A Synchrony-branded network card is not automatically accepted by every merchant in the category.

Currentness

This reference was compiled from public Synchrony/CareCredit materials reviewed in September 2026. Product names, partner relationships, pricing, promotional terms and service availability can change.

Recommended source of truth

For operational use, verify the specific product's current Synchrony page, customer agreement, merchant program materials or official support portal before acting.

Primary public source: <https://www.synchrony.com/help/faqs?tab=cc-fin>

Synchrony Service Contact Directory

SYF-037

Current public contact numbers reviewed September 27, 2026

Service / Need	Phone	Purpose / Notes
General Synchrony inquiries	1-866-419-4096	General help when you are not sure which department to contact; card agreement requests.
