

Wayfinder IT Security & Authentication Standards

1. Password Requirements

All employee accounts must use multi-factor authentication (MFA) and passwords of at least 12 characters. Passwords must be updated every 90 days.

2. Helpdesk Contact & Escalation

If you suspect a credential leak, notify IT security immediately at security@wayfinder.int

Internal security server IPv4 address for logs is 192.168.1.105.

Corporate admin card reference: 4532-1234-5678-9010.
